Edith

Dark Farmhouse Saison

Hill Farmstead - Greensboro, VT

6% ABV. Limited Release. Bottles & Draft.

Edith (1897-1992) was our grandfather's sister, and Hill Farmstead Brewery rests upon the land that was once home to her and her 13 siblings. In her honor, this black saison is crafted from American malted barley, German roasted malts, European hops, our farmhouse yeast, and water from our well. Unfiltered and naturally carbonated, this is the ale that I dream to have shared with Edith.

Dayman

Coffee IPA

Stone/Aleman/Two Brothers

8.7% ABV. Limited Release (brewed once). Bottles & Draft.

Jim Moorehouse, Nate Albrecht and Brad Zeller, three pals planning to open a Chicago brewpub under the moniker of Aleman, won first place at last year's Iron Brew home-brewing competition in the Windy City (judged by none other than Greg Koch, Jason Ebel of Two Brothers Brewing, and celebrated Chicago brewer, designer and author Randy Mosher). Their style-bending IPA artfully married the assertive tropical bite of Citra hops with amazing coffee flavor and aromatics to create something truly unique and exceptional.

Serendipitously, Two Brothers recently kicked off a new adventure roasting their own coffee beans, and provided just-in-time freshly roasted java for the brew.

Rarely released in its purest form, Ananke is the backbone of our wild ale program, a base beer used for blending and fruit infusion. Named for the ancient Greek Goddess of inevitability and personification of destiny, necessity & fate, Ananke helps bring order to an otherwise chaotic universe. Such as her namesake, this delicately sour ale's presence is felt throughout all of our barrel-aged beers. Brewed October 23, 2012 and aged in used wine barrels until March 6th, 2013.

Manhattan NW

Cascade Brewing - Portland, Oregon

11.32% ABV. Limited Annual Release. Bottles & Draft.

Manhattan NW, a NW style sour ale that was, until recently, a secret. It's a blend of Blond Quad aged in Heaven Hill Bourbon barrels on 150 pounds of sour pie cherries for five months before additionally aging on apricot noyaux for three months.
