Hopheads go to great extremes in their lupulin quests. It's a worthy endeavor, but fraught with falling across the event horizon in a hoppy stupor. With swirling flavors from both dark malts and the crisp body from pilsner grains, our limited release black IPA will take you to the center of a hop explosion and back, without all the crushing gravity.

FlagRaiser IPA

Slumbrew - Ipswich, Mass

IPA • **7.5% ABV, 80 IBU**

Manic IPA Series – Draft and 22 oz bottles

Hops: Columbus, Mt. Hood, Crystal, Galaxy

Grain: 2-Row Pale, Belgian Pilsner and Munich Malts

Flagraiser IPA is a big, hoppy tribute to the unfurling of the Grand Union flag atop Prospect Hill in Somerville, MA on January 1, 1776. This ale celebrates our passion for hop aroma and flavor balanced with just the right amount of malt.

Huge aroma and resin-y flavors from the elusive Galaxy hops are the signature of this beer. Built on a solid base of pale malts, this double IPA makes generous use of hops from Columbus, Crystal and Galaxy with the Galaxy hops taking the lead during ten days of aggressive dry-hopping.
